The economical hybrid aluminum sled trailer that is a real blast. It's smaller and lighter so it's easy to tow and park but it's roomy enough to haul two sleds side by side.

The Blast has a lower ground clearance so it fits into most garages and with the spring assisted ramp it's easy to load and unload.

With screwless exterior metal, aluminum tube wall posts, cross members and roof bows, aluminum bottom trim, ATP stone guard, and zinc coated hardware the Blast is not only lighter but strong and durable too.

BLAST OPTIONAL FEATURES

- Track Mats and Glides (installed or shipped loose)
